

Product change notification: PCHIL series

Date: November 27th 2025

Dear customer,

Starting March 2, 2026, the eyepiece component of the following PCHIL series models will be updated:

- PCHIL013
- PCHIL012
- PCHIL023
- PCHIL3M

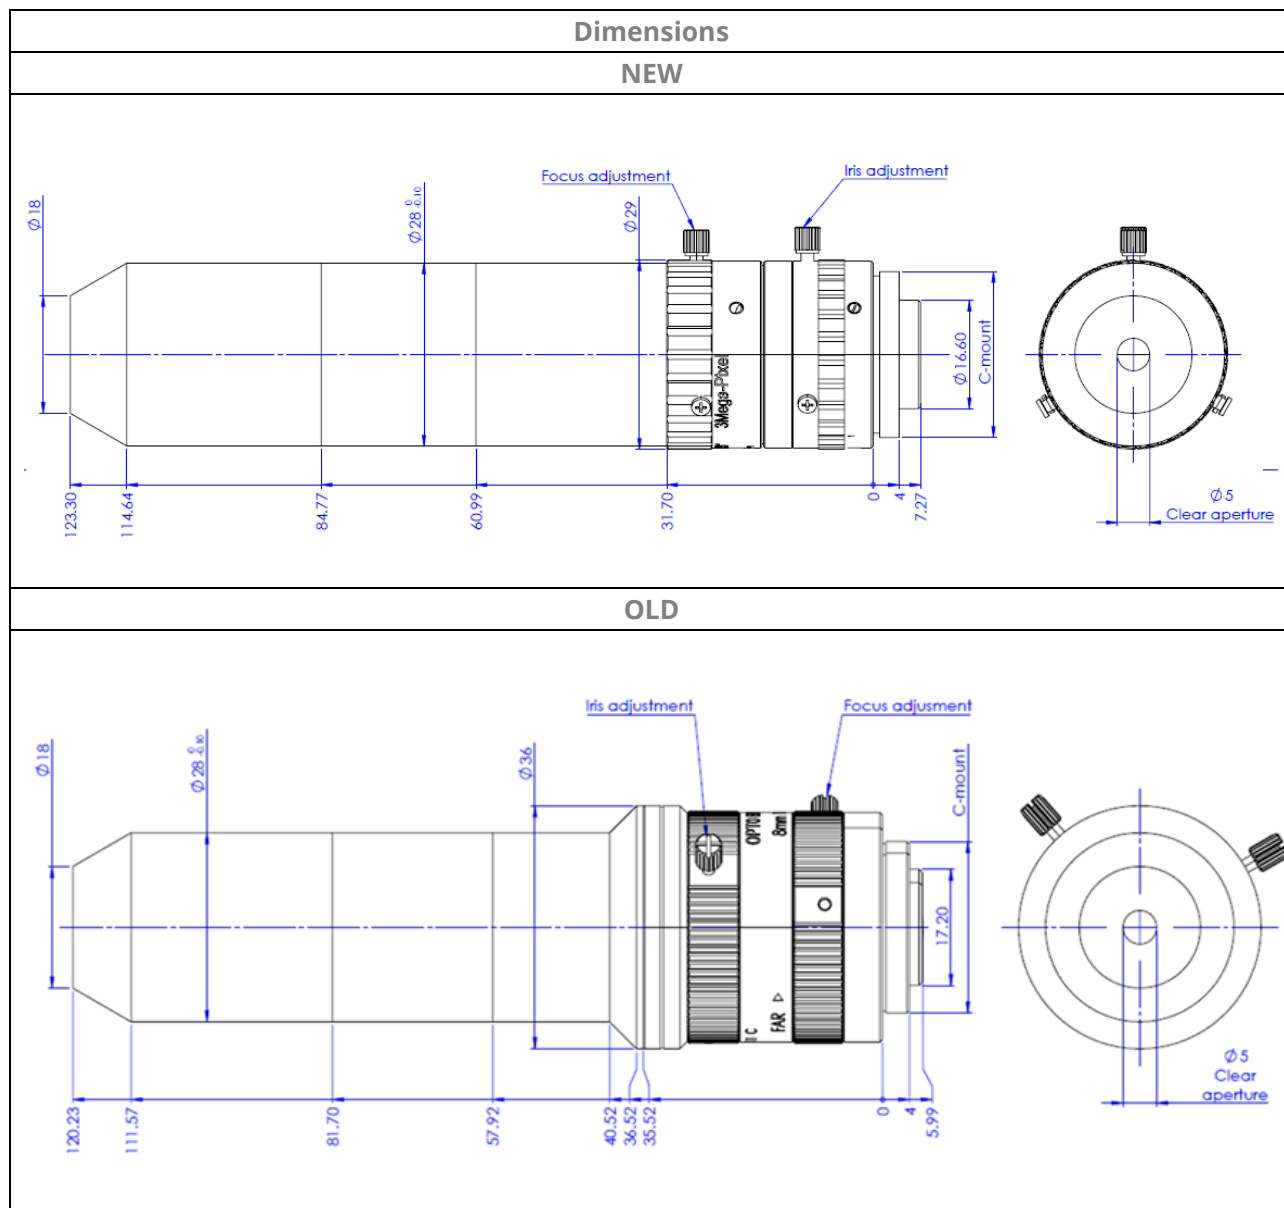

All lenses ordered on or after this date will include the new eyepiece design.

Please note:

- The updated models may have slightly different image circle sizes and mechanical dimensions compared to previous versions.
- F number range has changed from 1.4-Close to 1.8-16 for the updated models
- A detailed comparison between the new and old versions is provided below.

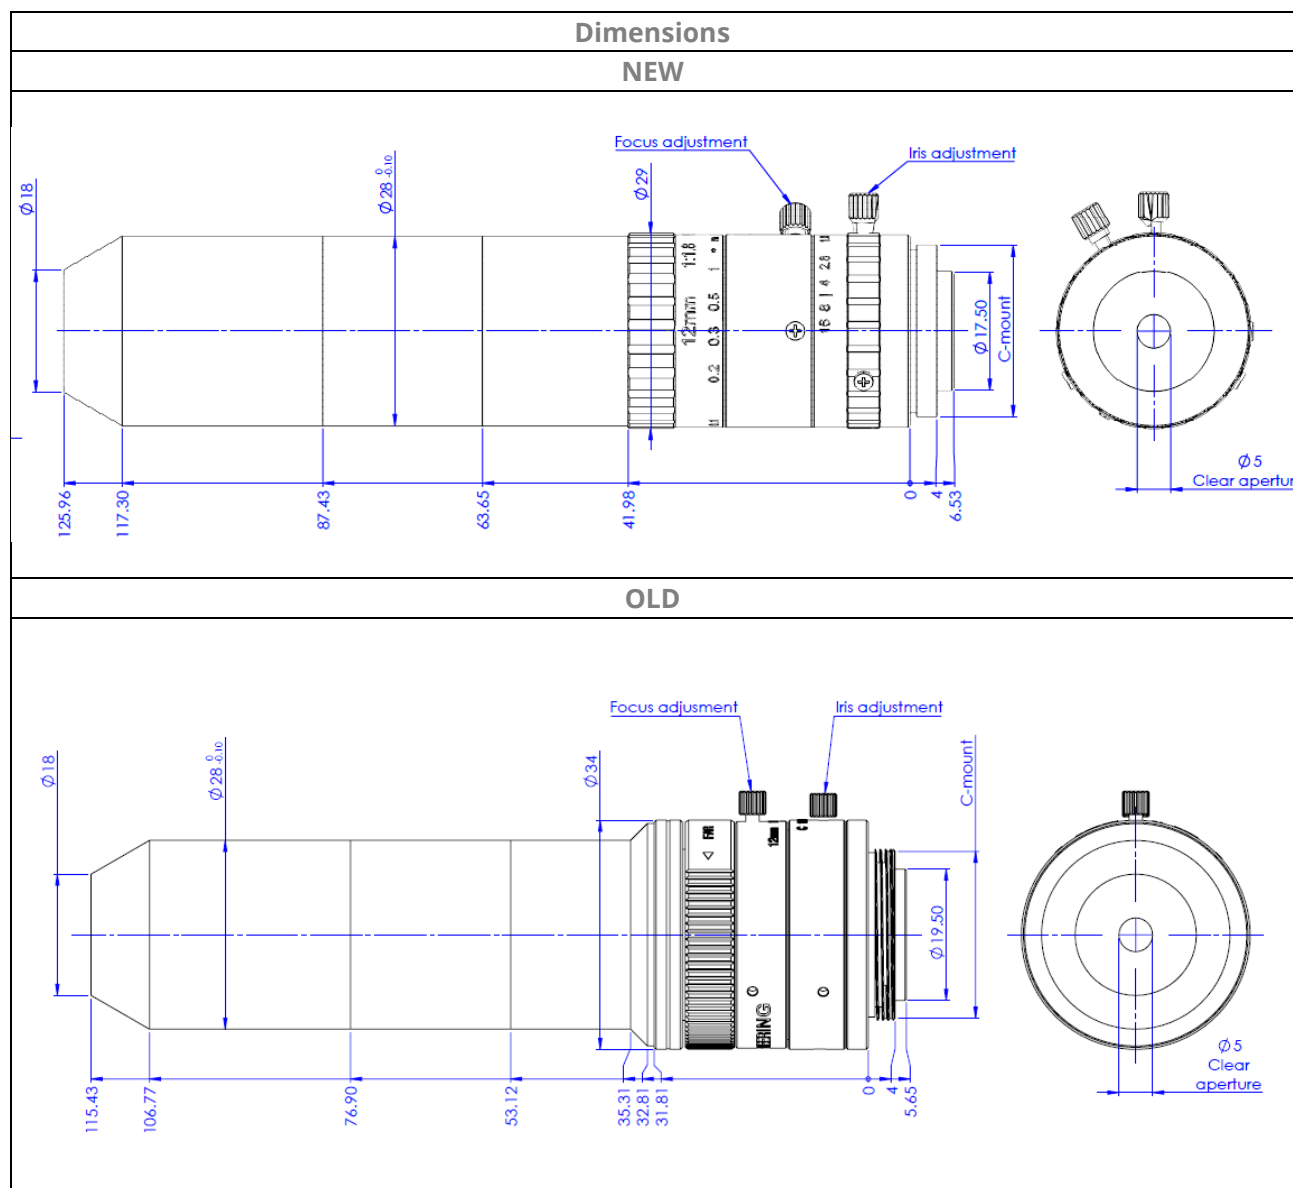

We recommend reviewing these changes to ensure compatibility with your current or future vision systems. For further assistance, please [contact our sales engineers](#).

PCHIL013
